REMARKS

The captioned application is the U.S. National phase of International Application No. PCT/IT2004/000370. The present amendment to the claims is to place the claims in condition as desired for examination, including to better conform the claims to U.S. patent practice, e.g. correction of multiple dependencies, provision of proper antecedent basis, removal of reference numbers, etc. None of the amendments are intended to narrow the substance of the claims.

Favorable consideration of the application is requested.

Respectfully submitted,

MAURO GELLI ET AL
